2017-18 Winter Renovations

Upgrades on Main Floor Planned

Winter upgrades are already in the works on the primary dining floor at Shadow Lake.

Already in place in the bar area are three new large flat-screen televisions.

Two 55" TVs have been installed at the north end of the bar area — at each corner of the room.

A larger third unit —

65" — has been mounted on the wall near the doors to the outdoor deck.

Also planned for this off-season are some new window treatments for the Lake Room and the Grill Dining Room.

These will include more shading and less drapes. The Lake Room will also have window blackout capabilities to

prevent excess glare during large meetings.

The main floor bathrooms will also get a fresher look with an upgrade to some of the plumbing, and brand new floor tiling in both the ladies' and men's facilities.

All planned renovations are scheduled to be completed by the end of March.
